

An extensive product range is just the beginning. What really matters is what you can build with it.

We manufacture and distribute over 1,000 school, office, creative, and promotional products. We help businesses select the right categories, prepare for the season, and expand their offerings at their own pace.

SEE THE NEXT SLIDES FOR DETAILS

**We combine three roles:
manufacturer, distributor and supplier.**

Manufacturer

We manufacture our own products using materials such as films, PVC, PP, synthetic leather, and paper.

Distributor

Top European brands round out our school, office, stationery, and creative selections.

Supplier

Easily consolidate items across various categories into one seamless order through Comarch B2B.

COMPANIES WE WORK WITH

Panta Plast serves businesses operating across various sales and procurement models.

Wholesalers

Office Supply Dealers

Stationery Stores

Bookstores

Supermarkets & Retail Chains

Local Stationery Businesses

International Clients

Partnership on your own terms. Whether you start with a single product, a specific category, or a larger volume order, we adapt to your needs.

Combine multiple categories into a single, seamless offering.

A wide product range doesn't mean you have to buy everything. It allows you to build a basket tailored specifically to the categories that matter most in your sales model.

We don't assume that every client needs the exact same product range.

1 We can start with a single product. _____

2 We can focus on a specific category. _____

3 We can map out your seasonal range together. _____

4 We can discuss expanding your current portfolio. _____

No one knows your needs better than you. You set the scale and direction.

We'll help you structure the ideal package and working model.

You don't need to overhaul your entire inventory to benefit from our offering.

01

Fill the Gaps in Your Range

Select a specific product or product group currently missing from your portfolio.

02

Prepare Your Seasonal Range

Combine the categories you need for a specific sales window and scale your stock levels accordingly.

03

Expand Your Core Range

Select products designed to complement the year-round offering of your store, wholesale operation, or office supply dealership

Begin with your immediate needs. Scale up our collaboration whenever you find it advantageous.

Under the Panta Plast brand, we supply covers, report binders, sleeves, ring binders, document folders, and more.

We also offer custom options (e.g., printing or logo branding) on selected products. Every custom order is discussed individually.

DISTRIBUTED BRANDS

A broader range shouldn't mean compromising on quality.

Alongside our own manufactured products, we offer select third-party brands, carefully chosen for their quality and how well they complement our entire portfolio.

[Explore the Product Catalog →](#)

For years, we've been expanding across multiple product categories. One of our most recognizable lines remains our textbook and notebook covers.

Using this category as an example, we'll show you how we develop products and create solutions designed to support our clients.

Textbook and notebook covers represent one of Panta Plast's strongest categories.

Variants

Our portfolio covers various formats and fitting options.

Tool

The public Cover Finder allows you to start your selection using either exact dimensions or textbook details.

The Panta Plast Cover Finder allows you to choose the right cover quickly and with complete confidence.

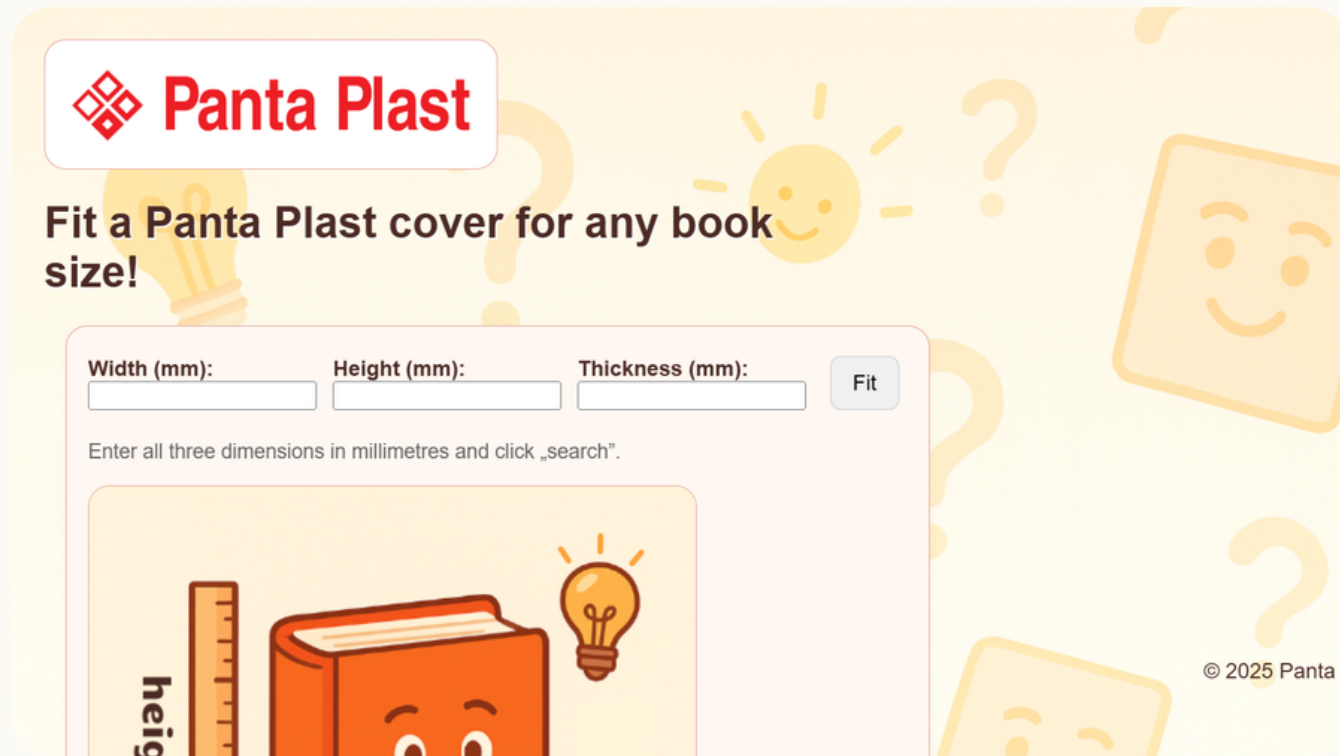

The screenshot shows the Panta Plast website's cover finder tool. At the top left is the Panta Plast logo. Below it, the text reads "Fit a Panta Plast cover for any book size!". There are three input fields labeled "Width (mm)", "Height (mm)", and "Thickness (mm)", followed by a "Fit" button. Below these fields, a note says "Enter all three dimensions in millimetres and click „search“.". To the right of the input fields is an illustration of a girl holding a stack of books. At the bottom left of the interface, there is a red circle with the number "01" and the heading "By textbook details". Below this heading, the text says "Select the grade level and subject, then search by title, author, or publisher.".

By textbook details

01 Select the grade level and subject, then search by title, author, or publisher.

The selected option should then be verified against our current product range and stock availability.

Our Cover Finder simplifies and organizes the entire selection process and it's fully accessible in 10 language versions.

The screenshot shows the Panta Plast Cover Finder interface. At the top left is the Panta Plast logo. Below it, the text "Fit a Panta Plast cover for any book size!" is displayed. The main form has three input fields labeled "Width (mm):", "Height (mm):", and "Thickness (mm):", each followed by a "Fit" button. Below the input fields, a note says "Enter all three dimensions in millimetres and click „search“." At the bottom of the form, there is an illustration of a book, a ruler, and a lightbulb. The background of the interface is yellow with various icons like a sun, question marks, and a smiling book.

Standardized Process

Retail, bookstore, or wholesale staff can follow the exact same steps to handle customer inquiries with ease.

End-Customer Access

The tool is publicly accessible, end users with textbook details or book dimensions can also use it independently.

10 Language Versions

The current public version supports 10 languages and includes a link to the distribution map.

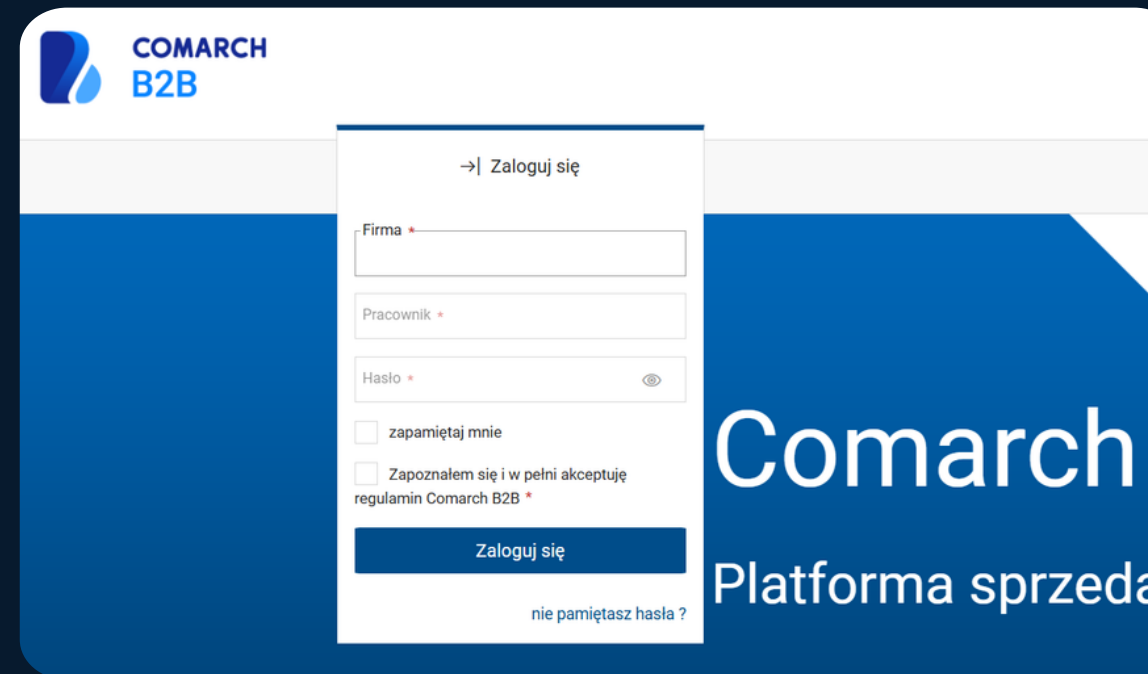

Business clients can place orders through the Comarch B2B platform.

Comarch B2B allows our business partners to conveniently submit orders online.

If you prefer direct contact, you can always place your order with a dedicated sales representative.

You choose the ordering method that works best for you.
